Today, **Zimmer90** — the German duo of best friends and creative partners Finn and Joscha who recently released their [What Love Is EP](#) (a sparkling cocktail of indie-pop-disco) & are about to embark on their **biggest EU/UK Tour** yet. They'll be partnering with **Spotify Fans First**, granting Zimmer90 fans first access to tickets. See all the tour dates below + find tickets [HERE](#).

On their recent EP **What Love Is**, Zimmer90's sophisticated and wistful pop music recalls shades of Parcels, Air, Phoenix, and The Bee Gees — it's a collection that highlights their impressively restrained and irresistibly lush sound that straddles disco, yacht rock, French touch, and psychedelia. A wonderful synthesis of the organic and electronic, all the EP's tracks were performed and recorded in Joscha's grand-aunt's warmly appointed studio space.

United by a deep love of music as well as architecture, design, and art, Finn (keys, bass, guitar, backing vocals) and Joscha (lead vocals, keys) exhibit an intimate chemistry on record, on stage, and on their ballooning social media accounts.

It's been a stacked two years for the duo. 2023 saw them **sell out a 28-show headline tour**, spanning across Germany, Austria, and Switzerland, building on a packed 2022 with 25 gigs. They've been crushing the festival circuit too: All Points East Festival (London), MS Dockville (Mainstage, 10K!), Summer Well (Rumania), Frequency Festival (Austria), Electric Picnic (Ireland), Superbloom (Munich), BR Puls Open Air, and Apple Tree Garden among others. Released independently on December 8, 2023, title track "What Love Is" claimed the **#1**

**spot** on Instagram with a towering **1.9 million creations** and **250K+ TikTok videos**. The EP itself has over **36 million Spotify streams** already.

Zimmer90 is poised to dominate the last half of 2024 with their North American debut. Having sold out (again!) their biggest venues yet, headlining across Europe and the UK, and even opening for Chromeo this year, they head into 2025 set to break their own glass ceilings and bring their live show to the biggest audiences yet.
