

Presstext ENG – BUNTSPECHT

Buntspecht's pop music is characterized by a dystopian romanticism, a radical wild beauty, an insane intensity as well as a sincerity and artistic freedom that is unparalleled these days. With the extraordinary new album "Konstrukt 5", the band was able to enter the German charts for the first time.

Buntspecht are a captivating live band - once you've seen them, you'll never forget it. Almost every one of their songs opens up a new universe, points in a different direction, but all together they form an almost magical unity, a homogeneous work. Buntspecht succeed in creating a coherent whole from the multitude of their influences and thus a magically indulgent indie chamber pop sound. Nobody sounds like Buntspecht right now.
