

CHESNEYHAWKES

Chesney Hawkes Spring 2024 bio

Chesney was catapulted to fame, aged 19 starring as the lead role in the popular coming of age film 'Buddy's Song', alongside lifelong friend Roger Daltry. His first single, spawning from that film was the timeless 'One And Only', writing itself into history as one of the biggest hits of the 90's, regularly used to this day in major films, documentaries and advertising campaigns, and played regularly on major Radio stations worldwide - a timeless classic.

The huge success of the song both here, in the USA and worldwide, helped Chesney become one of the most recognisable pop stars in the world.

Under new management since 2022 Chesney is soon to release his highly anticipated comeback album 'Living Arrows', produced and co-written with global superstar writer/producer Jake Gosling (Ed Sheeran/One Direction/KSI/Shawn Mendes), featuring songs co written by Nick Kershaw.

He has embarked on a carefully curated PR campaign ahead of this including making front page headlines at the FIFA World Cup 2022, Headlining to 50,000 in Doha, playing the European Cup final in Prague, Headlining the London New Year's Day Parade and more recently being surprised and performing on *Michael McIntyre's Big Show*. This performance, alongside the 'One and Only' featuring twice on the *Masked Singer* final at the same time, blew up the internet and pushed Chesney back into the top ten of the iTunes chart in February 2024.

Chesney has undoubtedly reached 'national treasure' status and can regularly be found on major TV appearances such as *The Last Leg*, *This Morning*, *Never Mind the Buzzcocks* and many more. With a huge press campaign lined up and the new album being released, 2024 promises to be a huge year.
