Valentino Vivace «Discoteca Vivace» (Album – 24.01.2025)

With his second album ***Discoteca Vivace***, Swiss Italo-Disco sensation **Valentino Vivace** takes us on a musical journey – to a place where the night glows with color and freedom. Imagine stepping into a club perched high on cliffs overlooking the sea: a place where everyone is welcome, free to be themselves, and dance until dawn. The album tells the story of an unforgettable night in that very «Discoteca», accompanied by diverse rhythms that bring every moment on the dance floor to life.

From pulsating Italo-Disco bangers to the sensual sounds of tracks like «Baia degli Angeli» and the dreamy tones of «Ti Sento» that accompany the sunrise at the end of the night – ***Discoteca Vivace*** is a cocktail of emotions: powerful, sensual, and dreamy. The opening track «RGB» (Rosso, Giallo, Blu) invites listeners to immerse themselves in Valentino's vibrant world, where colors and emotions blend into one.

The single «Hulahoop» is the heart of the album – an Italo-Disco whirlwind with an irresistible chorus that immediately grabs hold. The song pays tribute to legendary icons like Marilyn Monroe, Brigitte Bardot, and Sophia Loren, while sampling the bold sensuality of Sabrina Salerno. It's an anthem to freedom, movement, and the celebration of the body – a liberating dance that embraces authenticity.

Valentino Vivace himself explains the concept behind ***Discoteca Vivace*** as follows:

“The idea of the album was to represent the different moments of a club night. From the pure energy of Italo-Disco to the endorphin-fueled climax of the night, and finally to the slow, dreamy tracks at six in the morning when the sun rises again.”
