# BIOGRAPHY

Formed in Tokyo in 2014, HOLLOW SUNS quickly gained attention with the self-released 3-song EP *Hollow Suns* in 2015. The band steadily built momentum in Japan with a series of well-received releases, eventually signing with Texas-based label Sunday Drive Records in 2019 to release the EP *Into the Water*.

In June 2021, they released *Process Of Losing*, a discography album compiling four previous works, via Japan's ICE GRILL\$. The following month, they embarked on a release tour across Japan, which led to the first edition of their own event, *Holiday in the Sun vol.1*, in March 2022—selling out immediately.

On June 8, 2022, the band released their debut full-length album *Otherside*, produced by Will Yip. After completing an 11-show tour across Japan, they closed the year with a packed tour final at Spotify O-WEST in Tokyo.

In June 2023, HOLLOW SUNS ventured overseas for a Southeast Asian tour, performing in Thailand, Malaysia, Singapore, and Indonesia. Back home, they supported numerous international acts visiting Japan.

In 2024, they released a new EP titled *FREE FALL* through ICE GRILL\$ (Japan) and SUNDAY DRIVE RECORDS (US), once again mixed and mastered by Will Yip. That year saw them complete two U.S. tours totaling around 30 shows, including full support for RIVAL SCHOOLS' East Coast tour. They also performed at THE FEST in Florida and LTC FEST in Virginia, earning global attention. At the end of 2024, they joined the European booking agency AVOCADO BOOKING.

In 2025, HOLLOW SUNS supported THE STORY SO FAR on their full Japan tour and released the vinyl edition of *Otherside* via Belgium's THIRTY SOMETHING RECORDS. The band also hosted and headlined their first domestic booking tour, *LEAVING TIME Japan Tour*, across 11 cities. In July, they served as full support on TOUCHÉ AMORÉ's Japan tour, preceded by the release of their new single "Windowed Pain." Partnering now with LAST RIDE RECORDS (Australia), alongside ICE GRILL\$ and SUNDAY DRIVE RECORDS, the band is expanding its global presence.
