

## HEAVY LUNGS

**Heavy Lungs** bring raw, loud and uncompromising energy to their shows taking influence from the rowdy and liberating gigs of the 80s and 90s. Rising brutally fast from the get-go, they have shared stages with comrades IDLES, The Oh Sees, METZ, JOHN and more.

The band are now touring their explosive, furiously fun and unique brand of punk extensively across the UK and Europe. Fresh off the back of their 2023 critically acclaimed debut album 'All Gas No Brakes' released with Alcopop! records, they have gone on to receive significant attention from the likes of Steve Lamacq and Iggy Pop. **Heavy Lungs** is a rock'n'roll sandwich you didn't know you needed, but now it's in your lunchbox every day.

Tinnitus or a relentless earworm for days to come, a **Heavy Lungs** show is one to remember.
