

/// Indie meets Rave: KYTES announces their new Europe Tour!

KYTES are back on stage in Europe. The Munich-based trio, consisting of longtime friends Michael Spieler, Timothy Lush, and Kerim Öke, has become a fixture on the European indie scene over the years. Their sound combines lightness and intimacy with driving energy. They are now touring 35 European cities with their “Indie Rave Tour.”

Since their formation in 2015, KYTES have built up a steadily growing fan base. Their mix of indie and electronic beats unfolds its full effect on stage. Sold-out venues, over 100 million streams, and international awards are proof of KYTES' undeniable talent. With their new single “Cope,” KYTES capture the feeling of our times: the daily maelstrom of bad news, endless loops, and doomscrolling. Their upcoming album “Indie Rave” picks up where they left off, yet still looks ahead.

With their unmistakable mix of catchy hooks, driving beats, and euphoric live energy, KYTES are now embarking on the next chapter with the “Indie Rave Tour 2026 & 2027.” Old and new friends are invited to experience the pulse of indie and electro live and up close.
