

néomí

"Intricate, intimate, texturally spare, lyrically observational and arresting, the six songs of 'after' are like snapshots that capture your attention and draw you in"

THE SUNDAY TIMES

"A shattering and sublime effort, néomí's raises anticipation for 'somebody's daughter', harnessing the soft intricacies of before to newly existential limits"

THE LINE of BEST FIT

"Harnessing her vocal power and injecting her inherent talent for hooking you in with the winding narratives, néomí is an artist who deserves to be noticed and adored"

EARMILK

With a delicate sound carrying the weight of an old soul, **néomí's** stripped-back style blends the lush ambience of contemporary indie-pop artists like Phoebe Bridgers, Justin Vernon and Julia Jacklin with the troubadour flair of sixties protest folk. Growing up in an environment that offered little stimulation, néomí spent much of her time observing. This inner reflection revealed two wolves: the old school folk artist, and the contemporary indie-pop artist. On her upcoming releases, they find a place to co-exist.
